RE: Confirmed Case of COVID-19 in Green Valley School

Dear Parent/Guardian of Green Valley School,

Manitoba Public Health officials have advised Green Valley School on December 1, 2020 of 2 confirmed cases of COVID-19 in grade 7 and grade 12 at Green Valley School on November 23, 2020 when the individual(s) may have been infectious.

Green Valley School is working closely with public health officials and following their recommendations.

At this time, no close contacts have been identified at Green Valley School. No one is required to self-isolate from this exposure. Anyone who was in grade 7 or grade 12 is recommended to self-monitor for symptoms until December 7, 2020 and seek testing if symptoms develop.

Please note: the school is not permitted to release the name or any identifying information about the confirmed case of COVID-19 to any member of the school, community or media.

If your child develops a new onset or worsening of any one symptom listed in Column A or any two or more symptoms listed in Column B (see table below), even if they are mild, immediately isolate them from others. It is recommended your child get tested for COVID-19 as soon as symptoms appear. You may go directly to the nearest COVID-19 testing location during their open hours. For the testing site nearest you, please visit <https://www.gov.mb.ca/covid19/updates/testing.html>, or call Health Links—Info Santé at 204-788-8200 or toll-free at 1-888-315-9257.

*Ensemble vers un avenir plus sain.
Together leading the way for a healthier tomorrow.*

A	B
Fever/Chills	Runny nose
Cough	Muscle aches
Sore throat/hoarse voice	Fatigue
Shortness of breath/difficulty breathing	Pink eye (conjunctivitis)
Loss of taste or smell	Headache
Vomiting or diarrhea for more than 24 hours	Skin rash of unknown cause
	Nausea or loss of appetite
	Poor feeding (if an infant)

Please note: individuals with symptoms outlined in columns A and B, who choose not to be tested, must isolate for a minimum of 10 days following the start of symptoms. Isolation can be stopped at day 10 if the individual has been symptom free for 24 hours.

For more public health information about COVID-19, please visit <https://manitoba.ca/covid19/updates/resources.html>.

Sincerely,

Dr. Davinder Singh
